条件判断

PHP语言 第3-4课

- **掌握条件判断语句的使用方法**
- **通过条件判断语句验证表单输入的用户名密码**

条件语句是用来判断给定的条件是否满足，并根据判断的结果决定后续命令的执行执行与否JavaScript语言中的条件判断语句格式如下：

```
if( ) { }
```

在if(){ }的基础上添加else，可以使判断语句实现“二选一”的效果，即符合条件时执行命令A，不符合条件时则执行命令B。

其具体格式如下：

```
if( ){ }
```

The image features a central figure of a person wearing a black hoodie, with their right hand pressed against their forehead in a gesture of stress or contemplation. The background is a vibrant blue digital landscape. It includes a glowing globe on the right side, a network of interconnected nodes and lines, and several padlock icons scattered throughout, suggesting themes of cybersecurity or digital privacy. A semi-transparent horizontal band across the middle contains the text.
