# 业务逻辑漏洞

业务逻辑漏洞是一种设计缺陷、逻辑缺陷，表现为设计者或开发者在思考过程中做出的特殊假设存在明显或隐含的错误。攻击者会特别注意目标应用程序采用的逻辑方式，设法了解设计者与开发者做出的可能假设，然后考虑如何攻破这些假设。

The image features a central figure of a person wearing a black hoodie, with their right hand resting on the hood. The background is a vibrant blue digital landscape. On the right side, a glowing globe is visible, surrounded by intricate network patterns of lines and nodes. The overall aesthetic is high-tech and futuristic, with various icons like padlocks and data points scattered throughout the scene.
